

hello

attached here you will find a draft of an ordinance I have written to address a growing problem on the island. I only find now that we really have nothing in the ordinances to cover this. I am sending this to both the selectmen and planning board because I am not sure which one should put something like this in place. let me know what you think.

Brad

Sec. 12-20-A Accumulation of garbage, trash or solid waste matter

Any occupant of any private property who blatantly leaves or causes to be left piled on the property garbage, trash or waste matter of any kind and not in suitable containers and which is deemed unsightly or deemed to be a health risk by any person or citizen of the town of Long Island and believes this to be a violation of this sec. can then file a complaint with the selectmen who will direct the CEO to investigate the complaint and after determining that the complaint is valid will then proceed as dictated by article 12-32 enforcement and article 12-32.5 collection fee.
